March 9, starting at 3:30 p.m.: Public meeting for Minnesota triennial standards review

Your chance to learn more about water quality standards and share your comments for revisions and additions in a live format is **tomorrow!** The MPCA will hold a virtual public meeting on March 9, from 3:30 - 6 p.m., to answer questions about standards and their use in protecting the environment, as well as receive comments. The meeting will open with a 30-minute "primer" presentation on water quality standards.

To access the Webex meeting:

- Shortly before the meeting starts, go to the State of Minnesota [Webex site](#)
- Enter the meeting number (access code): 146 409 0600; and password: dgPRGYp274
- You may also join by phone: 1-415-655-0003; access code: 146 409 0600

This virtual public meeting is one part of the 2020-2021 triennial standards review. Written comments on water quality standards needs may be submitted through 4:30 pm on April 9, when the formal public comment period for the triennial ends.

To learn more and share your opinion:

- Visit this webpage: www.pca.state.mn.us/water/2020-triennial-standards-review.

The federal Clean Water Act requires states to develop water quality standards to protect water resources for the public's use and enjoyment, and to sustain aquatic life such as fish, aquatic plants and invertebrates. Every three years, states are required to review their water quality standards and provide an opportunity for the public to comment on the need for any changes or additions. The 2020-2021 triennial standards review fulfills this requirement.

The mission of the MPCA is to protect and improve the environment and human health.

Subject: Minnesota Department of Health Community Public Water System Updates Update

is the latest information from the Minnesota Department of Health (MDH) Drinking Water Protection program related to COVID-19
r systems. You can find additional information posted at [Public Water Systems and COVID-19](#).

u need to reach MDH with questions, start with your District Engineer. For contact information, visit [Drinking Water Protection Cont](#)

se forward this message to other staff at your system. Thank you.

VID-19 Vaccination Information

ou can see in the website update this week, Governor Walz announced [Minnesota's Guidance for Allocating and Prioritizing COVID-19](#)
ine for Phases 1b, 1c, 2. Water and wastewater essential workers are in Phase 1c. These workers are defined as "workers involved in
ewater treatment and operations; sanitary and storm maintenance crews performing emergency and essential maintenance and
eyance systems." For more information, visit [COVID-19 Vaccine Phases and Planning](#).

ou can see on [Who's Getting Vaccinated?](#), the anticipated timeline for Phase 1c water and wastewater essential workers is May-June

linnesotans who have not been vaccinated should sign up for the COVID-19 [Vaccine Connector](#) to stay updated on eligibility for the
D-19 vaccine and connect to local vaccine opportunities when they become available.

ng up for the Vaccine Connector is easy, safe, and secure. There will be no cost and no restricted period for signing up. Health insura
ersonal identification forms are not required for signing up.

Lead and Copper Rule updates

uary, the United States Environmental Protection Agency (EPA) published the Safe Drinking Water Act Lead and Copper Rule Revisi
r).

ave published a new [Lead and Copper Rule Revisions](#) webpage with information about the LCRR, including questions from commun
r systems (CWSs) and our answers. Please review the information on this page.

will be communicating with you regularly about what the revisions involve and how to prepare. We recommend systems hold off on
ting or developing new LSL Inventories and LSL replacement plans until MDH has contacted you with the complete requirements (E
tical guidance to be published soon). The revisions will go into effect on January 16, 2024.

reminder, you can find:

- General MDH COVID-19 updates on our website: [MDH COVID-19](#)
- MDH water operator FAQs and other information at [Public Water Systems and COVID-19](#)
- Water system planning resources at [MRWA COVID-19 Resources](#), [AWWA COVID-19 Resources](#), and [EPA Water Utility Resources: the COVID-19 Pandemic](#).

Thanks to all for your continued cooperation and hard work during these difficult circumstances.
