Subject: FW: Congressionally Designated Funding-Infrastructure

Importance: High

RAMS MEMBER COMMUNITIES:

Apparently Congressional “earmarks” are back! If your community has a “shovel ready” project that is in need of funding – sewer, water, infrastructure repairs, broadband expansion – already engineered – now is the time to reach out to Senator Tina Smith, Klocuchar or Congressman Stauber. More information will be coming out on this new development in Washington DC....be ready!! If you need some last minute engineering, this would be the time to spend a few dollars and have a project that is ready to roll.

PLEASE SHARE THIS NOTICE WITH YOUR ELECTED OFFICIALS.
THANKS

Importance: High

Good Morning!

The US Senate Appropriations Committee is moving ahead with congressionally designated funding requests or so called “earmarks.” Senator Smith’s Office is expecting guidance on these requests this week.

With all of this said, we are asking organizations to have information about their projects ready to go as the “turnaround time” is expected to be very short. Senator Smith will be providing information about the request process as soon as it becomes available.

Should you have any questions, please do not hesitate to contact me.

Have a great Minnesota Day!

Peter Makowski
North Central Regional Outreach Director
Office of U.S. Senator Tina Smith
